Reem Yasser

Frontend Developer

Cairo, Egypt | +201092949725 | reemelhusseiny.1999@gmail.com **|** LinkedIn: Reem Yasser **|** GitHub: Reem Yasser **|** Portfolio

Summary

Frontend Developer with 2 years of experience building scalable and user-focused web applications using React.js, Next.js, and TypeScript. Skilled in frontend performance optimization and responsive UI development, with strong experience collaborating with backend and UI/UX teams to deliver high-quality, maintainable solutions.

Work Experience

Frontend Developer — Weevo | Hybrid – Full-time (Apr 2024– Present)

- Developed and maintained Admin and Merchant Dashboards with responsive UI across desktop, tablet, and mobile.
- Built reusable React components and integrated RESTful APIs for scalable and maintainable frontend development.
- Implemented single and bulk order creation, including shipping cost and distance calculation using Google Maps API and Excel (.xlsx) uploads.
- Improved table performance using **Table Virtuoso**, enabling selection of large numbers of rows without crashes or UI freezes.
- Identified and reduced unnecessary React re-renders using **React DevTools Profiler**, improving overall application performance.
- Implemented **role-based access control (RBAC)** to manage user permissions and access to dashboard features.

Frontend Developer — Freelance (1 Oct – 15 Nov 2024)

- Developed a responsive dashboard interface using **HTML5 and CSS3** for data management and visualization.
- Created structured and user-friendly UI layouts with intuitive navigation.
- Implemented styled **search and filtering interfaces** to improve usability.

Frontend Developer— Freelance (May – Oct 2024)

- Contributed to the development of a real-time transportation web application using **React, GraphQL, and WebSocket**.
- Contributed to GraphQL API integration for data fetching and interactions between drivers and passengers.
- Designed and developed responsive UI for transportation and delivery services.
- Built reusable UI components and collaborated with backend developers to integrate application features.

Personal Projects

Interview Platform

- Built a technical interview platform using **Next.js, Tailwind CSS, Convex, and Clerk**, supporting interview scheduling and management.
- Developed responsive interfaces for **live video/audio interviews** and a **VS Code-like coding environment** with real-time collaboration.
- Integrated **authentication, session recording, and replay** for interview review.

Stripe Subscription Management

- Developed a subscription-based web application using **React, TypeScript, Supabase, and Stripe** to manage secure payments.
- Implemented subscription checkout and payment status handling, with access control based on users' subscription states.
- Integrated subscription lifecycle management, including **pausing, resuming, and canceling subscriptions**, with support for subscription expiration and payment status updates.

Skills

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **State Management and Data:** React Query, Redux Toolkit, Zustand, Context API, REST APIs, Axios
- **Version Control:** GitHub

Education

Bachelor of Economics & Political Science, with grading very good, Cairo University (2018–2022)

Certifications

Full-stack web development, Information Technology Institute ITI

Languages

Arabic: Native | **English:** B1
